Participants are encouraged to bring **promotional materials** for display on current publications, exhibitions, and other fashion-related projects.

For **Montreal restaurant recommendations**, please see: [Suites Culturelles blog](#)

For updates, please check our [Facebook Group](#)

Concordia University Directions:

Location: EV10-730 (10th Floor of the Engineering-Visual Arts Building). The Textiles and Materiality Research Cluster Commons Area (Part of the Milieux Institute for Art, Culture and Technology at Concordia University).

Instructions for coming from the metro/subway: (see the small black x on the map below where it says Guy Concordia Subway). Take the Green Line to the Guy/Metro station. Exit the subway platform in the direction of Guy (not St. Mathieu). As you leave the turnstiles, go right, to the revolving Concordia entrance doors to enter the EV Building (Engineering-Visual Arts). Take the escalator up to the street level. You will be on the Engineering side of the Building. Proceed straight ahead for 25 feet or so toward St. Catherine Street and you will see the Security Booth on the left. Turn left down the large long corridor, passing directly in front of security desk. (Do not be tempted to use the elevators on the Engineering side of the Building). You will pass by the FOFA Gallery on the right. At the other end of the corridor, on the left, is a bank of elevators. Take the elevator to the 10th floor. Coming out of the elevator area on the 10th floor, go to the right. You will see a stairway on the left. Pass the stairs and take an immediate left. Go through a set of double doors to the end of the hallway on the left, EV10-730.

Instructions for coming from the street: (see "Enter here" on map below) Go to the corner of St. Catherine and MacKay Street. Just north of that intersection on the left is an unmarked bank of doors to enter Concordia's EV Building (Engineering Visual Arts). Enter the building and take the first right to the elevators. Take the elevator to the 10th floor. Coming out of the elevator area, go to the right. You will see a stairway on the left. Pass the stairs and take an immediate left. Go through a set of double doors to the end of the hallway on the left, EV10-730.
